PersonalBest

INTERNATIONAL EDUCATION

At Personal Best International Education, we are dedicated to equipping young learners with the necessary knowledge and skills to be successful future citizens who make a positive impact on our world.

We do this through a content and language integrated learning (CLIL) approach where students learn about a subject while simultaneously improving their English language skills.

Skills for the Future

Our programmes focus on a range of essential skills, from curiosity, creativity and critical thinking to digital literacy through a variety of academic subjects. Students can also explore topics such as virtual reality, robotics and sustainability.

Collaboration with UK Students

International students collaborate with British classmates in small classes, which enhances English language skills and provides an enriching intercultural learning experience.

A Safe and Supportive Campus

Students study and stay in a safe and supportive environment at The Mountbatten School. Students benefit from an authentic British secondary school experience, focusing on academic and personal growth, ensuring peace of mind for parents.

Award-winning Education

We bring together UK curriculum subject teachers from The Mountbatten School, which has achieved awards for its commitment to education and innovation, alongside English language specialists and summer camp experts.

The Mountbatten School

All Personal Best International Education programmes are held at The Mountbatten School in Romsey, Hampshire - an academy school located just 1 hour southwest of London. This location is easily accessible to the UK's main international airports.

Facilities

- Fully enclosed and secure site with access to all facilities within a short walk
- Lessons delivered in state-of-the-art classrooms, Science and IT Labs
- Newly built full board premium on-site residence
- Sports facilities include: Astro turf and grass football pitches, basketball, netball, tennis courts, gymnasium, sports hall, fitness suite and athletics track
- Other facilities include: Music Theatre, Recording Studio and Dance Studio

2 weeks

Location

The Mountbatten School

Maximum Class Size: 10

(maximum 8 international)

2 British students in every class

Accommodation

Full-board residential in dormitories of 4-6 beds

Minimum English Level

B1 (Intermediate)

Course breakdown

Lessons 23 hrs per week
Activities 20+ hrs per week
Excursions - Two full days
Study Tours - Two half days

This course aims to inspire curiosity, foster critical thinking, and equip students with the skills they need for future studies and working life.

Morning sessions will focus on key STEM disciplines including science, technology, engineering and maths. Additionally, the programme will spotlight computer science, highlighting the critical role of coding, software development and data analysis in driving technological advancements.

In afternoon sessions, students will be introduced to business fundamentals such as marketing, finance and ethics, working together to develop a business idea and plan to present to a panel of judges.

The course aims to help young learners:

- Become responsible and successful future world citizens
- Enhance intercultural awareness and foster a sense of global identity and belonging
- Enhance awareness and knowledge of environmental and global issues threatening our planet
- Learn to communicate successfully and work collaboratively with people from all over the world
- Improve English language skills

Immersion Experience

A complete immersion experience with British students

Develop Coding Skills

Develop coding skills by taking control of a Mars Rover simulation for exploration of Martian terrain

Explore Virtual Reality

Create an App and use Virtual Reality and AI to solve real-world problems

Create a Cleaner World

Unlock the future of sustainable energy and drive the green energy revolution to create a brighter, cleaner tomorrow

Laser tag

Activities

Young learners practise their English through a variety of fun and challenging sports and activities, delivered by Personal Best's excellent team of qualified coaches and instructors who work on our UK school provision year-round.

Example activities, include:

- Laser tag
- Inflatable activities and games
- Bushcraft
- Dance
- Arts & Drama
- Archery
- Football
- Tennis
- Basketball
- Volleyball
- Fitness training sessions
- DJing

Excursions

Students use their English in real situations and learn more about the UK. There are two full-day excursions at the weekend and two half-day study tours per two-week stay.

Each excursion includes a tour of the area and a visit to a museum or place of historical or cultural interest. Typical destinations include:

- **Oxford:** Home to the oldest University in the UK
- **Stratford upon Avon:** Birthplace of poet and playwright, William Shakespeare
- **Bath:** A fine Georgian city with Roman baths
- **Bletchley Park:** Discover the incredible achievements of Britain's World War Two Codebreakers

Oxford

Study Tours

Study tours take place on Wednesday afternoons with typical destinations:

- Oxford University
- University of Southampton
- Sea City Museum with the Titanic Story
- National Museum of the Royal Navy

Future World Citizens

SAMPLE TIMETABLE

The aim of this course is to meet the needs of international young learners in an ever-evolving world and to equip them with the necessary knowledge and skills for successful future study and working life.

Study Abroad Groups

Our closed group and mini-stay packages are designed to equip students with skills and experiences that complement their studies while broadening their global perspective through an unforgettable educational journey.

We offer two tailored options for closed groups from the same school or educational organisation throughout the year, excluding July and subject to availability. Each package includes lessons, activities, excursions, and study tours, with the primary difference being the level of collaboration with British students.

High School Part-Integration Programme*

This programme offers groups a comprehensive study and cultural experience in the UK with a combination of English Language lessons in a closed group and an authentic educational experience of UK Curriculum subjects and life at a prestigious UK Secondary School through integration into lessons* with British students taught by qualified subject teachers.

*Please note all UK Curriculum lessons at The Mountbatten School are outside the provisional British Council Accreditation.

English Plus Programmes

This programme is tailored for closed groups with specific English language needs plus tailored afternoon options of specific activities such as sport, outdoor education and more along with a wide variety of excursions.
